Serviettes

ecoOffice®

Recycled Paper

Recycle and buy recycled!

Recycling works by collecting used waste, sorting the materials, breaking it down into basic components and then recreating new goods. Buying recycled products 'closes the loop' by providing a market outlet for materials saved from landfill.

- Toilet rolls
- Hand towels
- Facial tissues
- Kitchen roll towel
- Stationery

ecoOffice®

Biodegradable Sugarcane

Paper made from sugarcane

Bagasse is the sugarcane fibre pulp, left after the juice has been extracted from the stalk to make table sugar. Before now this waste by-product was incinerated releasing carbon emissions into the atmosphere. By using products made from sugarcane this atmospheric pollution is avoided.

- Toilet rolls
- Hand towels
- Serviettes
- Catering supplies

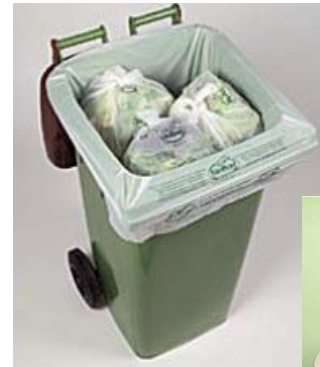

ecoOffice®

Compostable Cornstarch

Alternative to plastic products

PLA products are made from corn starch – a sustainable crop, renewed every 12 months. Unlike plastic that can take up to 1,000 years to break down, PLA cornstarch products biodegrade into environmentally safe, natural fertiliser within 180 days in an industrial composter.

- Bin liners
- Catering supplies
- Water cooler cups
- Drinking straws
- Pens
- Rulers & letter openers

ecoOffice®

Renewable Bamboo

100% biodegradable & non-toxic

A natural cellulose fibre that biodegrades into soil without environmental pollution. Fast growing, bamboo can be harvested every three years. Naturally anti-biotic so it doesn't require fertilisers or pesticides. 100% bamboo tea towels are 3 times more absorbent than cotton tea towels.

- Tea towels & Hand towels
- Catering supplies
- Copy paper
- Pens

ecoOffice®

Go green @ work. Buy recycled!

Office essentials with green credentials

Re-stock your stationery, bathroom and kitchen supply cupboards with sustainable alternatives to your consumable office requisites.

Make the switch to recycled office stationery or stock up on 100% post-consumer recycled toilet paper, sugarcane hand towels, alcohol-free hand sanitisers, natural cleaning products and compostable bin liners.

Cater for your next function, meeting or office party with biodegradable plates, cups, bowls, cutlery and serviettes made from renewable resources such as cornstarch, sugarcane or bamboo.

Implement an office recycling program with colour-coded eco bins and educational signage for your team.
